#### Section 1. Introduction

Nigeria occupies a special place in Africa and in global affairs. It is Africa's largest economy and 26<sup>th</sup> in the world. Nigeria has the potential to become a major player in the global economy by virtue of its human and natural endowments. However, as recognized by the Economic Recovery and Growth Plan (2017-2020), this potential has remained relatively untapped over the years partly because of corruption and mismanagement of public finances. The result is poor socio-economic and development indices.

President Muhammadu Buhari, at his swearing-in in 2015, promised to make the fight against corruption a cardinal part of his administration. His commitment to a full-scale anticorruption agenda was accentuated in May 2016, when the President attended the international Anti-Corruption Summit organized by the government of the United Kingdom. It was on this global stage that he reaffirmed his commitment to strengthening anti-corruption reforms through implementing programs aimed at 'exposing corruption; punishing the corrupt and providing support to the victims of corruption; and, driving out the culture of corruption'.

Flowing from these commitments, the Federal Government sought to deepen institutional and policy reforms, and this led to Nigeria joining the Open Government Partnership (OGP) in July 2016 as the 70<sup>th</sup> country. The OGP is an international multi-stakeholder initiative focused on improving transparency, accountability, citizen participation and responsiveness to citizens through technology and innovation. It brings together government and civil society champions of reforms who recognize that governments are more likely to be more effective and credible when they open governance to public input and oversight. At the national level, OGP introduces a domestic policy mechanism through which the government and civil society can have an ongoing dialogue. At the international level, it provides a global platform to connect, empower and support domestic reformers committed to transforming governments and societies through openness.

The OGP was formally launched in 2011 when the eight (8) founding governments (Brazil, Indonesia, Mexico, Norway, the Philippines, South Africa, the United Kingdom and the United States) endorsed the Open Government Declaration and announced their country action plans. The uniqueness of the OGP process lies in the implementation of the National Action Plan as it provides and organizing framework for international networking and incentives.

Between January 2017 to May 2019, the country's inaugural National Steering Committee oversaw the implementation of First Nigeria OGP National Action Plan (NAP I). It was comprised of fourteen commitments organized around four thematic areas namely fiscal transparency, anti-corruption, access to information and citizens' engagement. The Second National Action Plan (NAP II), leverages and incorporates the lessons, insights and perspectives gained from the last two and half years of implementing NAP I.

#### **Overview of the National Action Plan**

The Nigeria OGP multi-stakeholder forum, National Steering Committee (NSC), made up of 42 members was set up with equal membership from government and non-state actors, with a governance arrangement consisting of two substantive Co-Chairs (State and Non-State) and two Incoming Co-Chairs (State and Non-State representatives), reflecting the principle, practice and spirit of co-creation that embodies the Open Government Process. The NSC is made up of representatives of Government Ministries, Departments and Agencies (MDAs) as well as civil society organizations, the organized private sector and professional associations who worked together to co-create this two-year (2017 – 2019) National Action Plan (NAP), with the Ministry of Justice serving as the National Coordinating Secretariat.

The Federal Government appointed the Attorney General of the Federation as the Co-Chair (State representative), and the Federal Ministry of Justice was named by the President as the OGP Coordinating Ministry to implement the commitments and OGP Principles, while the non-state members of the NSC elected the Executive Director of Media Rights Agenda as Co-Chair (Non-State representative). Similarly, the NSC appointed the Minister of State in the Ministry of Budget and National Planning and the Senior Fellow of the Nigeria Economic Summit Group (NESG) as Incoming Co-Chair (State representative) and Incoming Co-Chair (Non-State representative) respectively.

The NAP aims to deepen and mainstream transparency mechanisms and citizens' engagement in the management of public resources across all sectors. The first NAP had four thematic areas: (1) promoting fiscal transparency; (2) access to information; (3) anti-corruption and asset disclosure; and, (4) citizen engagement and empowerment.

The four main criteria that guided the design and development of the NAP II are:

- 1. The commitment must fall within the remit of OGP.
- 2. Roll-over issues that were not completed in the first NAP but had the potential for transformative change.
- 3. Issues that have been raised nationally and globally as necessary for deepening the OGP principles, such as inclusivity, service delivery and open legislature.
- 4. Issues generated from the national consultative process.

The NAP II, an improvement of the first NAP marks out the expected impact, outcome, milestones and activities which deliver the expected impact. The OGP NAP II is driven by the need to make a measurable positive impact on the ordinary citizens of Nigeria by identifying the issues that restrict effective citizens' participation in government. The NAP II has seven (7) Thematic Areas:

- Fiscal Transparency
- Extractive Transparency
- Anti-Corruption
- Access to Information
- Citizens' Engagement and Empowerment
- Inclusiveness and Service Delivery.

The NAP II effectively deals with issues of transparency in budgeting, procurement, taxation and natural resource governance, corruption, asset recovery management, freedom of information, communication channels between citizens and government, service delivery and inclusion of under-represented groups in government.

Table 1 below provides a summary of the second National Action Plan commitments by thematic areas.

	Table 1: Summary of Second National Action Plan Commitments by Thematic Areas
Fisc	cal Transparency
1	To ensure more effective citizens' participation across the entire budget cycle, including audit
	process.
2	Full operationalization of Open Contracting and Effective Deployment and Use of Open
	Contracting Data Standards (OCDS) to Meet Diverse Stakeholders Needs.
3	Improving the fairness, transparency, efficiency and effectiveness of Nigeria tax and non-tax
	revenue systems through the adoption of common reporting standards and other key revenue

initiatives (TADAT, Addis Tax initiative, Strategic Revenue Growth Initiative and Financial System Strategies 2020). **Extractive Transparency** Public disclosure of extractive sector contracts, licenses, permits, payment to government and revenue stream to improve transparency, fiscal terms and positively impact public finances. Work together with all stakeholders (especially women, youth and vulnerable groups) to enhance transparency in the extractive sector through full implementation of EITI Standards and audit remediations. **Anti-Corruption** To establish a public register of beneficial owners of corporate entities To Strengthen Nigeria's asset recovery legislation including non-conviction based confiscating 7 powers and the implementation of unexplained wealth orders To take appropriate actions to implement the National Anti-Corruption Strategy **Access to Information** Improved compliance of public institutions with the Freedom of Information Act (FOIA) concerning the creation, storage, organization and management of public records and strengthening the functions and responsibilities of record management officers in Public Institutions. Improved compliance of public institutions with FOIA concerning the mandatory publication 10 provisions requirement, annual reporting obligations to the AGF and increasing the level of responses to FOI requests. **Citizens Engagement** To implement the Permanent Dialogue Mechanism adopted in the first National Action Plan (NAP). To synergise and co-ordinate technology-based citizens' feedback on programmes and projects across transparency and accountability. To create the space for citizens and citizen organisations, human right defenders and the media 13 to thrive, express themselves and participate in the different stages of the policy making process without fear or intimidation. Inclusiveness To Increase the voice and enhance participation of the vulnerable (Women, young people, persons with disabilities and marginalized groups), thereby addressing systemic barriers, and improving inclusive services in governance and decision-making processes. **Service Delivery** Contributing to the improvement in quality of public service delivery (availability, efficiency 15 reliability, equitable without hidden costs, transparency and accountability) in six pilot

Beyond the commitments, the second NAP also took into consideration cross-cutting issues that will empower citizens to engage with the government and ensure proper dissemination and management of information. The cross-cutting issues are:

Transportation) through initiatives to improve the performance and results.

Development /Enactment of legal, legislative or Executive Instrument

Ministries of Health, Education, Agriculture and Infrastructure (Power, Works & housing and

1. Technology and Innovation;

- 2. Monitoring and Evaluation;
- 3. Communication Strategy for the NAP II.

Three working groups will be set up to ensure effective deployment of these tools across all the thematic areas and to develop implementation strategies and to articulate action plans to support the work of these groups. The plans are set out in Section 6.

#### Section 2. Progress in Implementation of First National Action Plan-

The implementation of the 14 commitments recorded the following progress:

Commitment 1: To ensure that budget planning, approval, implementation, monitoring and reporting meet the needs of citizens and that citizens have open access to budget information in a format that is both human and machine-readable

The country achieved significant level of success with this commitment translating into increased budget transparency and accountability. There was a record number of documents related to the publication of budgets, increased number of public consultations in developing the Federal Government's Medium Term Expenditure Framework (MTEF) and Medium Term Sector Strategy (MTSS) by publishing the 2017-2019, 2018-2020 and 2019-2021 documents, increased public debate on the budget, with National Assembly hosting multiple public consultations on the budget in 2018 and 2019. The Budget Office of the Federation also developed the iMonitor for citizens to track and monitor projects in their communities and report feedback to government; and also, the 2017, 2018 and 2019 citizens guide to the budget was published. BudgIT produced a simplified version of the 2018 and 2019 proposed and approved budgets as well as used their tool – Tracka.ng – to monitor capital budget implementation across the country. In the same light, Premium Times Centre for Investigative Journalism (PTCIJ) and Order Paper Advocacy Initiative used their udeme.ng and constrac.ng tools to track constituency project implementation.

Commitment 2: To improve accountability and transparency of government procurement processes through the implementation of open contracting and public participation in the public contracting process

The Bureau of Public Procurement updated the Nigeria Open Procurement Portal (NOCOPO) after user experience and requirement gathering meeting with the Procurement Working Group, Private Sector companies, Procurement Officers in the pilot MDAs and supported by the Open Contracting Partnership (OCP). The improved NOCOPO platform was used for pilot programmes using live data from 8 pilot MDAs and is scheduled for launch in 2019. The Bureau for Public Procurement issued, through the Office of the Secretary to the Government of the Federation, an administrative guideline and rule on compliance with e-procurement. To sustain public engagement in the procurement process, the Public and Private Development Centre (PPDC) recently launched a toll-free line for the public to report procurement and project implementation-related issues in their community for escalation to the relevant MDAs and BPP.

Commitment 3: Work together with all stakeholders to enhance transparency in the extractive sector through a concrete set of disclosures related to payments by companies and receipts by governments on all transactions across the sector's value chain

NEITI published and submitted the 2015 Oil and Gas Audit report to the Auditor General and National Assembly as part of efforts to improve remediation activities expected from this

commitment. The DPR continued to publish crude export figures every quarter. Efforts continued toward establishment of the Beneficial Ownership Register, especially in the oil and gas sector with CAC, NEITI and Mining Cadastral Office (MCO) working together on modalities for establishing a register for the extractive sector. The National Assembly passed the Companies and Allied Matters Act Repeal and Reenactment Bill, while CSOs like CISLAC published research on the existing legal framework for Beneficial Ownership and a Beneficial Ownership factsheet. DPR have successfully reviewed the procedure guide on custody transfer. CSOs disseminated the 2015 NEITI Oil and Gas Report and hosted 3 Town Hall meetings in 3 states in Niger Delta region.

## Commitment 4: Adopt common reporting standards and the Addis Tax initiative aimed at improving the fairness, transparency, efficiency and effectiveness of the tax system

While FIRS reported a significant level of implementation of this commitment, non-state actors complained of lack of engagement and collaboration. The FIRS signed the necessary instruments according to the Addis Tax Initiative; including two Common Reporting Standard Agreements - Common Reporting Standard Multilateral Competent Agreement and Multilateral Competent Agreement on Country-by-Country Reporting. Both agreements mean Nigeria joins the automatic exchange of information with other countries which will fully begin in 2019. On March 13, 2018, FIRS set up a committee to work out the sensitization of financial institutions on the implementation of the Common Reporting Standard while another committee will handle sensitization of other corporate institutions. The Federal Executive Council (FEC) approved the Country-by-Country Reporting regulation, which is awaiting gazetting by the Minister of Justice, another regulation has been drafted by FIRS on the Automatic Exchange of Financial Account Information and the Minister of Finance authorized the Chairman of FIRS to sign on her behalf. Both regulations contain penalties for non-compliance.

## Commitment 5: Improve the ease of doing business and Nigeria's ranking on the World Bank Doing Business Index

The latest World Bank Ease of Doing Business Index showed that Nigeria moved up 24 points in the 2018 ranking, exceeding the target of 20 points set in the National Action Plan. This improvement boosted investors' confidence in the reform of government as being executed by the Presidential Enabling Business Environment Council (PEBEC) and the Federal Ministry of Industry, Trade and Investment. There is an ongoing pilot in Lagos and Kano to reduce the number and improve the procedures for obtaining land titles in both states. In addition, PEBEC is currently working with 10 MDAs offering business process related services to improve coordination and collaboration; some of the effort is easily noticeable in the reduced number of agencies operating at the airports. PEBEC continues to receive, review and implement feedback from business process users to improve experience through <a href="https://www.pebec.report">www.pebec.report</a>. For business registration, CAC successfully reduced the process to 24 hours and is now working to ensure that businesses can now be registered in 2 hours before the end of 2018. The cost of registration has been reduced as well. The CAMA bill passed by the National Assembly will further improve business registration processes.

#### Commitment 6: To establish a Public Central Register of Beneficial Owners of companies

CAC and NEITI completed a consultation with stakeholders on the implementation of the beneficial ownership register. The CAC has also designed relevant Forms for disclosure – Forms CAC-PSC01 (Notice of Person with Significant Control) & Form CAC-PSC02 (Change of

Details of Notice of Person with Significant Control) to support Beneficial Ownership implementation. CSOs like CISLAC continued to provide research and knowledge support for the process of establishing beneficial ownership; hosting a multi-stakeholder dialogue and have built capacity of other CSOs on beneficial ownership. They published research on the legal framework and a factsheet on Beneficial ownership. The National Assembly successfully repealed and re-enacted the Companies and Allied Matters Act (CAMA) to include beneficial ownership reporting by companies. CAC, working with partners, also revised their annual returns forms to include beneficial ownership information. As part of implementation of the EITI Standards on Beneficial Ownership in the extractive sector, NEITI is also utilizing data from the audit process to develop the BO register.

Commitment 7: Establish a platform for sharing information among Law Enforcement Agencies (LEAs), Anti-Corruption Agencies (ACAs), National Security Adviser (NSA) and financial sector regulators to detect, prevent and disrupt corrupt practices

The level of implementation of this commitment was limited due to lack of interest from the agencies. The inter-agency coordination for the implementation of the National Anti-Corruption Strategy (NACS) has been constituted and a hotline is being set up in the Ministry of Justice.

# Commitment 8: To strengthen Nigeria's asset recovery legislation including non-conviction-based confiscation powers and the introduction of unexplained wealth orders

The Asset Recovery and Management Unit, which also serves as the secretariat of the National Anti-corruption Strategy was set up in the Ministry of Justice to coordinate asset recovery and implementation of NACS. A central asset recovery account was set up with the Central Bank of Nigeria to receive local and international recoveries. A presidential committee is currently auditing all recoveries and their report is expected to be made public soon. ANEEJ led the CSO participation in the negotiation of an agreement for the return of the recovered \$321m Abacha loot. The final agreement includes the historic CSO monitoring of utilization of recovered assets; this is the first time CSOs are being included in a return of stolen asset agreements in the world. Nigeria fully participated in the Global Forum on Asset Recovery (GFAR) hosted by the US and UK Government in Washington DC in December 2017. Nigeria presented a CSO Country Report on Asset Recovery at the Forum. In addition, Nigeria received GBP78m from the UK Government as part of recoveries from the Malabu Oil Scandal. Several anti-corruption strengthening bills such as the Proceeds of Crime Bills continue to work its way through the legislature. The Senate passed the Proceeds of Crime (POCA) Bill and is awaiting passage by the House of Representatives before it is signed into law.

# Commitment 9: Commit to taking appropriate actions to coordinate anti-corruption activities; improve integrity, transparency and accountability

The Federal Government approved the harmonized National Anti-Corruption Strategy and the inter-ministerial committee will be set up soon. The Asset Recovery and Management Unit in the Federal Ministry of Justice serves as the Secretariat for the implementation of NACS. In addition to the submission of the Whistle Blower Bill to the National Assembly, the government followed up with a Whistle Blower Policy managed by the Ministry of Finance and the Asset Recovery Management Unit (ARMU) pending passage of the bill into law.

Commitment 10: Improved compliance of public institutions with the Freedom of Information Act (FOIA) in respect to the annual reporting obligations by public institutions and level of responses to requests

This commitment was not fully implemented. The FOI Unit has trained some public institutions on the provisions of the FOI Act and is still training additional MDAs. Efforts are currently ongoing to re-submit the memo on punitive and administrative procedures on the violation of the FOI to the Federal Executive Council. The punitive and administrative guideline will be contained in a circular to be issued by the Head of Service with the approval of the Federal Executive Council. A practice direction to guide the court on FOI Cases has been developed and efforts are ongoing to submit it to the Judiciary through the Chief Justice of Nigeria.

Commitment 11: Improved compliance of public institutions with the Freedom of Information Act (FOIA) with respect to the Proactive disclosure provisions, stipulating mandatory publication requirements

This commitment was substantially implemented. The FOI Unit in the Federal Ministry of Justice through several measures, have encouraged MDAs to comply with the proactive disclosure clause of the FOI Act. The FOI Unit, in collaboration with CSOs, monitored and guided 40 public institutions in Abuja on the E-FOI portal. There is an increase in the number of E-FOI Portals from 3 to 9. The unit successfully negotiated an out-of-court settlement for 16 cases of non-proactive disclosure by MDAs. Also, FOI Desk Officers have been designated in 135 Ministries, Departments and Agencies. The FOI Unit has published the list of FOI Desk Officers and equally compiled and published a Compendium of FOI Requests and Responses, and published and circulated Guidance for the implementation of Uniform Mandatory Publication Requirement for Public Institutions under the FOI Act.

Commitment 12: **Develop a Permanent Dialogue Mechanism on transparency, accountability** and good governance between citizens and government to facilitate a culture of openness

This commitment was fully implemented as the National Orientation Agency (NOA), in collaboration with CSOs, developed a framework for permanent dialogue with which they are currently consulting stakeholders across Ministries, Departments and Agencies for adoption and validation.

Commitment 13: Government-civil society to jointly review existing, legislations on transparency and accountability issues and make recommendations to the National Assembly

Tremendous progress was made in the implementation of this commitment as the laws were completely reviewed and a Government-CSO Roundtable validated the outcome of the process. CSOs are currently using the research to prepare materials for advocacy engagement with the National Assembly.

Commitment 14: Adopt a technology-based citizens' feedback on projects and programs across transparency and accountability

Different government agencies and CSOs developed and deployed tech-based interactive platforms to engage citizens and government on various aspects of governance and service delivery. Some of the tech-based platforms developed by the government include:

- **iMonitor**: This platform from the Budget Office allows citizens to give feedback directly to the government on budget implementation in their community or inform the government about projects they will like to see in the budget for their communities.
- **PEBEC App:** Nigeria's Official Public Service Complaint website for complaints and feedback for the service of any Ministry, Department and Agency of the government of the Federal Republic of Nigeria.
- NOCOPO: The platform makes all procurement data and information available to the public to enhance transparency in public procurement; ensure efficient service delivery, improved value of money, while fostering an equitable business environment for Nigeria.
- FGN iApp: This is an information dissemination mobile app that is designed to provide relevant and authentic real-time information from the Nigerian government to Nigerians at home and in the diaspora, as well as the rest of the world. FGN iApp content includes highly sought-after information on the Nigerian government, government bids and tenders, government job vacancies, top stories from The Presidency and the various government ministries, parastatals, agencies and lots more).

Civil Society Organizations, having identified societal issues, developed and deployed the following tech-based platforms:

- **Reportyourself:** This platform offers Nigerians an opportunity to report instances of everyday bribery and graft as well as celebrate champions of change who shun corruption and conduct business honestly.
- **REVODA:** This mobile app allows voters to report as independent citizen observers from their respective Polling Units across Nigeria. Citizens register with their Polling Unit number, name & phone number. All reports are automatically mapped, and voters remain anonymous. It also allows Enough is Enough Nigeria (EiENigeria) to send location-specific relevant information about the electoral process to registered users.
- Gavel: This is a civic tech organization aimed at improving the pace of justice delivery through technology. Tracking the process of trying an accused using "Justice Clock", Gavel monitors the length of time it takes to complete investigation and trial of the accused person.
- **iFollowTheMoney:** This platform allows rural communities to follow the utilization of money meant for projects in their communities and working with a network of journalists, data wranglers, development consultants, information analyst, legal practitioners to engage government on proper utilization of funds.
- **Tracka:** This is a community of active citizens tracking the implementation of government projects in their community to ensure service delivery; the platform connects community champions to the government through their legislators to ensure implementation and funding of projects listed in the budget.
- **Budeshi**: This platform which is Hausa for "Open it", is a dedicated site that links budget and procurement data to various public services. It is accessible to the public to interact with and make their comparisons.
- **ConsTrack:** The ConsTrack app empowers citizens to track the implementation of constituency projects and it comes loaded with verified and validated information on the location of the projects, the amount appropriated, level of funding provided the

implementing ministry, department or agency, status of implementation and the profiles of the legislators concerned. https://www.orderpaper.ng/category/projects/constrack/.

- UDEME: This is a social accountability project that empowers and educates citizens about budget and procurement processes in Nigeria. Through udeme.ng, citizens can now report any form of corruption and demand answers on how public funds have been spent. Findings from UDEME have helped to produce over 100 investigative stories published on Premium Times through rigorous budget tracking (an on-site ground truthing process), monitoring of the procurement processes, culminating in the revelation and prosecution of corrupt government officials. The term "udeme" is originally from the South-south part of Nigeria, meaning "My Share" and it is an initiative of Premium Times Center for Investigative Journalism.
- Value for Money: This is an audit data driven CSO technology platform (valueformoney.ng), designed for monitoring audited development projects, and enables citizens in under-served and marginalized communities to monitor audited development projects abandoned, not executed or poorly implemented in their respective communities. It further allows citizens to advocate for a more efficient and effective utilization of public funds in delivering priority projects while linking them with key accountability actors and institutions.

### Section 3. Methodology

In May 2016 President Buhari announced Nigeria's commitment to Global Open Government Partnership Principles and directed the Honorable Attorney General of the Federation and Minister of Justice to implement the commitments made in London. In June 2016, Nigeria sent a Letter of Intention to Join the Open Government Partnership (OGP). In July 2016, OGP wrote Nigeria conveying the International Steering Committee's acceptance of Nigeria as a member. It further requested that Nigeria set up a National OGP Steering Committee made up of civil society, organized private sector and selected government agencies and to commence the development of a National Action Plan for approval by the OGP Secretariat.

The Federal Ministry of Justice under the leadership of the Honorable Attorney General of the Federation and Minister of Justice (HAGF), organized a stakeholder session on OGP to identify members of the steering committee and to discuss the implementation framework of the OGP Principles in July 2016. At this session, the CSOs also self-selected their members to represent them on the steering committee. Subsequently, the HAGF approved the organization of a National Retreat in October 2016 to develop the OGP National Action Plan in consultation with government agencies and civil society organizations on the Steering Committee. In September 2016, The OGP Chief Executive Officer and Management Team informed the HAGF of their intention to visit Nigeria to meet with high-level officials in order to deepen knowledge on OGP and to assist Nigeria in developing the National Action Plan.

The first National Action Plan ended in June 2019. The process of producing the second National Action Plan started in 2018. In February 2018, at the annual general meeting of Open Alliance, a coalition of non-state actors working on Open Government Partnership (OGP), suggestions were made on issues to take on board in the second NAP. Similarly, at its annual general meeting held in Abuja from 15<sup>th</sup> - 16<sup>th</sup>April 2019, Open Alliance made suggestions on the process, content and structure of the second NAP.

The National Steering Committee (NSC) on the 7th of August 2018 set up the Second National Action Plan Committee to lead and guide the process for the development of the second

National Action Plan. The 4<sup>th</sup> National Steering committee meeting held on 7th of August 2018 was devoted to the second National Action Plan with concrete suggestions on the content. A public call was then issued to collate ideas and views from stakeholders and the general public on the second NAP. A drafting team was then set up to produce the first draft. The draft was considered and improved upon by the second NAP Committee. The NAP Drafting Team, thereafter, embarked on further consultations with proposed lead implementing agencies from 7<sup>th</sup> - 20<sup>th</sup> May 2019. A retreat of stakeholders - State and Non-State representatives, was held from 22<sup>nd</sup> – 23<sup>rd</sup> May 2019. The NAP Drafting Team continued to receive comments and feedback from state and non-state actors, which were incorporated in the draft NAP until August 2019. On the 5<sup>th</sup> of September, state and non-state stakeholders met to validate the draft NAP. On the 6<sup>th</sup> of September 2019, the National Steering Committee approved the validated NAP for onward transmission to the President and the OGP Global Support Unit.

Also, findings and recommendations from the report of the Independent Review Mechanism (IRM) undertaken on the first National Action Plan and the OGP Global Support were considered in the development of the second National Action Plan.

### Fiscal Transparency Open Budget and Audit

Thematic Area:	Fiscal Tr	Fiscal Transparency				
Commitment 1:	To ensur	o ensure more effective citizens' participation across the entire budget cycle, including audit process.				
Implementation Period:	Start Da	te: October 2019	End Date:	August 2021		
Lead MDA:	Budget (	Office of the Federation				
Responsible Person:	Director	General				
Designation:	Director	General				
Email and Phone Number(s):	TBD					
Other Actors Involved in the Implementation:	State Actors: Non- State Actors:	Actors: National Assembly, Central Bank of Nigeria, National Orientation Agency, Ministry of Information FIRS, National Bureau of statistics, Financial Reporting Council of Nigeria, National Assembly  BudgIT, Public and Private Development Centre, Centre for Social Justice, Civil Society Legislative Advocacy Centre, Nigerian Union of Journalists, Civil Resource Development and Documentation Centre (CIRDDOC), Citizens Wealth Platform, Manufacturers Association of Nigeria, Christian Aid, Action Aid, One Campaign, WANGONET, Professional Women Accountants of Nigeria, ANAN, OXFAM, FEDMU, NESG, ICAN, NACIMA, African Network for Environment and Economic Governance, Paradigm Leadership Support Initiative (PLSI), Order Paper Advocacy Initiative, Policy				
Brief Description of Commitment:	This commitment will ensure that citizens participate and make inputs into the budget process, starting with the pre-budget statement (Call Circular, MTEF, MTSS, etc.), executive budget proposal, budget debate through public hearings in the legislature, implementation, monitoring, reporting and auditing of the budget. It will also guarantee that budget information is made accessible to all.					
General Problem / Challenge Addressed by the Commitment:	There is inadequate citizens' engagement and participation in the budget preparation, approval, implementation monitoring and audit process. This results in citizens not having information, and thus not being able to relate to the projects in the budget. This ultimately weakens accountability in resource allocations.					
Specific OGP Issue(s) in Focus:		ens' participation in the budget cycle. ve management of public resources.				

	Poor public services ratings.
	Low budget performance.
	Weak transparency mechanism.
The rationale for the	By making budget information available and accessible to all citizens promptly and in a usable format, this commitment will
Commitment:	Limprove accountability on the part of Government, provide openhess and transparency in the hudget process, and ensure
Communication.	that citizens are engaged throughout the budget cycle.
Main Objective:	To ensure that budget planning, approval, implementation, monitoring, reporting, auditing meet the needs of citizens and
Main Objective.	that citizens have open access to budget information in a format that is both human and machine-readable.
	Improved transparent and accountable citizens-oriented governance, through effective budget implementation and
Anticipated Impact:	participation.

	Expected Outcomes	Milestones (Performance Indicators)	
1.	Improved timeliness of release of budget document	<ol> <li>Early preparation (call for circulars within the MDAs) and presentation</li> <li>Early passage of the budget by the National Assembly</li> <li>Early Presidential assent to the appropriation bill</li> </ol>	
2.	Increased citizens' participation in budget processes	Level of citizens' satisfaction with the budget process	
3.	Improved governance, transparency and accountability	Percentage of citizens aware of the budget process Percentage of citizens with access to sectoral performance reports	
4.	Improvement of the audit process	Passage of Audit Bill Increase in the percentage of citizens' participation in Audit	

	Planned Activities	Start Date	End Date	Expected Output(s)	Output Indicator(s)
1.	Conduct Annual Needs Assessment Survey; reports would accompany budgets in selected sectors including Health, Education, etc.	October 2019	September 2020	Comprehensive Needs Assessment Reports accompanying Annual Budgets of MDAs in the following sectors on:  Health Education WASH	Number and Percentage of MDA Annual Budgets with accompanying Needs Assessment Reports

				<ul><li>Agriculture</li><li>Power</li></ul>	
2.	To hold two public forums to obtain citizens' input into the prebudget statements using the draft MTSS and MTEF documents as tools/background documents in these forums.	October 2019	July 2020	Two well-attended public forums on pre-budget briefing, with participants from all subsectors of the economy.	<ol> <li>Number of public consultations hosted</li> <li>A compilation of relevant/usable inputs from the citizens.</li> </ol>
3.	Public hearings organized by the National Assembly on the budget.	October 2019	October 2019	National Assembly's acceptance to conduct required public hearings on 5 or more priority sectors of budget.	<ol> <li>Number of public hearings on budget organized by the National Assembly (NASS).</li> <li>Number of Sectors in which NASS held a public hearing.</li> <li>Number of advocacy visit done to the NASS by CSOs.</li> </ol>
4.	Mobilize CSO and citizen participation in the budget hearing.	November 2019	February 2020	CSOs' and citizens' willingness and preparedness to attend the public hearings on budget.	<ol> <li>Number of CSOs that attended the public hearings.</li> <li>Number of citizens clusters that attended the public hearings.</li> </ol>
5.	Annually publish a comprehensive citizens' guide to the budget.	October 2019	June 2021	Two citizens' budget guides published and widely circulated.	The number of copies (hard/softcopies) printed and circulated each year.
6.	Conduct annual citizens' satisfaction survey.	October 2019	June 2021	Two Annual Citizens' Satisfaction Survey Report	Segmented reviews on citizens' satisfaction across different subsectors.
7.	Timely publish all key budget documents, including project by	October 2019	June 2021	All relevant documents published on time.	Average time for the production of audit reports

	project release to all MDAs to facilitate citizens' participation according to the Fiscal Responsibility Act.			Sustained availability of the	
8.	Publish MDA budgets, as well as quarterly and annual budget implementation reports on MDA websites in both human and machine-readable formats.	October 2019	June 2021	following on MDA websites in human and machine-readable formats:  1. MDA Budgets.  2. Quarterly MDA budget implementation reports.  3. Annual MDA budget implementation reports.	The number of MDAs publishing budget implementation reports, following the Fiscal Responsibility Act (FRA) on their websites.
9.	Adopt a simple technology-based feedback mechanism for projects at the community level for project monitoring by government and CSOs.	October 2019	June 2021	Application of the selected technology-based mechanism in the monitoring of public projects across the country.	1. Number of public projects that are uploaded on the technology-based feedback platform per budget cycle by government and CSOs.  2. Number of feedback comments received from the citizens and also acted upon.
10.	Timely publish a report of budget monitoring in accordance with Fiscal Responsibility Act	October 2019	June 2021	<ol> <li>Annual monitoring reports of major national projects across Nigeria.</li> <li>Annual National monitoring report by Civil Society.</li> <li>Annual State level monitoring reports by Civil Society.</li> </ol>	<ol> <li>Number of National M&amp;E reports published on the Ministry of Budget and National Planning website.</li> <li>Number of national Citizen Budget monitoring reports.</li> <li>Number of state level Citizen budget monitoring reports.</li> </ol>

11.	To carry out multi-stakeholder engagement on the actualization of a definite budget calendar – the lack of observing a clear financial year affects citizens' participation in the budgeting process and indeed creates a knock-on effect on all other stages of the budget.	October 2019	February 2020	<ol> <li>The Executive sponsors an executive bill for the amendment of the Constitution for a predictable budget time line.</li> <li>A series of citizen engagements for the budget process of selected sectors.</li> </ol>	<ol> <li>Budget Calendar produced by Ministry of Budget and National Planning.</li> <li>Number of engagements for the budget process by sector.</li> </ol>
12.	Coordination and establishment of Fiscal Transparency portal	October 2019	May 2021	Establishment of Fiscal Transparency Portal	<ol> <li>Fiscal Transparency portal established.</li> <li>Number of multi-Stakeholder coordination workshops held.</li> <li>Number of consultations meetings held.</li> </ol>
13.	Conduct citizen participatory audit on government programs/projects implemented in selected sectors including Health, Education, Water, Sanitation and Social Investments, etc.	October 2019	May 2021	Citizen participatory audit conducted in the Health, Education, Water Sanitation, Social Investments, etc.	Number of Citizen participatory audit reports produced in:  Health Education Water and Sanitation Social Investment.
14.	Advocate for timely publishing of audit recommendations by the National Assembly	October 2019	May 2021	Citizens advocate for timely publishing of audit recommendations by NASS	1. Number of Advocacy visits to NASS for timely publishing of audit recommendations 2. Level of media dialogue around NASS' timely publishing of audit recommendations 3. Advocacy material produced targeted at NASS for timely publishing of audit recommendation.

	15.	Advocate for timely implementation of audit recommendations by Executive agencies	October 2019	May 2021	Citizens advocate for timely implementation of audit recommendations	1.Number of advocacy visits to selected ministries:      Health     Education     WASH     Agriculture     Power     Level of media dialogue around the executive agencies
additicconincidations						level of implementation of the audit recommendations

**Open Procurement**

	14. Transparency and Accountability and Totality (FollowTaxes)
The Bu	ureau of Public Procurement in line with the government commitment at the 2016 London Anti-corruption Summit
	ed the first Nigerian Open Contracting Portal (NOCOPO). The open contracting portal seeks to address issues around
·	y, corruption, resource wastage and improve the quality of services delivered to Nigerians through wider stakeholder
partici	pation in the procurement spectrum. This will ultimately improve transparency and accountability of fiscal governance,

#### Brief Description **Commitment:**

mit nd ler ce, **of** | better infrastructure and service delivery and public trust in governance.

The second phase of the NAP will prioritize timely data publication and availability, quality and use of published data by different categories of stakeholders for optimal results. This commitment will ensure inclusion of relevant actors, such as Women and Youth groups, Private sector stakeholders and State-Based Organizations to access, use and report on the impacts of published data.

General Problem / Challenge Addressed by the Commitment:	Despite the deployment of NOCOPO, stakeholders are still faced with the challenge of accessing public finance data of value to them. In 2018, the Secretary to the Government of the Federation issued a circular (Ref. No PROC/BPP/045/I/89 dated 10th July 2018) to over 500 MDAs to publish their contractual information on NOCOPO. However, there are still high levels of noncompliance to the directive and unavailability of data across stages in the procurement cycle.  More so, open contracting discourse in Nigeria is yet to include key actors relevant in its sustainability and achievement of greater impacts. For example, private sector audiences are relevant in ensuring continuous data availability in making better and informed business decisions, while data on health-related projects are of greater interest to Women groups.				
Specific OGP Issue(s) in Focus:	Effective Implementation of open contracting to improve public service integrity and increasing the transparency of the procurement processes; inclusion of actors relevant in the discourse and use of published information for improved governance and service delivery.				
The rationale for Commitment:	<ol> <li>Open Contracting can offer the following values through the use of innovative technology to increase access to procurement information:         <ol> <li>Transparency: The enhanced disclosure of procurement data and information across the entire procurement cycle and up to implementation stage, including beneficial owners of companies will make the procurement process more transparent and reveal how public resources are expended.</li> <li>Accountability: The enhanced disclosure of procurement data and information will ensure that citizens understand the basis of decisions made along the procurement cycle. This will make the decision-makers take actions that reflect better use of public resources, knowing that their actions can be challenged through existing recourse mechanism.</li> <li>Service Delivery: The use of open contracting helps the government to achieve value for money by providing a watchdog system that allows wider stakeholders to critique and monitor implementation of contracts. This ultimately checkmates unethical conduct and sharp corrupt practices in the processes of contract delivery.</li> </ol> </li> <li>Inclusion: Technology provides wider stakeholder participation in open contracting, thus limits human interface. This will allow stakeholders from all walks of life to interact, access, assess and give informed feedback on how government programs impact their lives.</li> <li>Citizen engagement: Availability of procurement data across the entire procurement cycle and up to implementation will ensure that all stakeholders can monitor the procurement activities and provide feedback. This will ensure that public contracts are delivered with value for money achieved, thereby leading to increased service delivery</li> </ol>				
Main Objective:	To improve accountability and transparency of public procurement processes, promote wider stakeholder participation and better service delivery through the implementation of OCDS.				
Anticipated Impact:	The efficient procurement system is evident in better contracting outcomes and improved position in global rankings on public procurement.				

	Expected Outcomes	Milestones (Performance Indicators)
1.	Achievement of better value for money in public contract delivery and reduction of corruption and fraud in public procurement processes	Levels of efficiency, effectiveness, economy and equity in public procurement processes Levels of efficiency, effectiveness, economy and equity in Public contract delivery
2.	Increased access to procurement data and information in both human and machine-readable formats by stakeholders including women, the private sector and State-based organizations	Level of access to procurement data and information
3.	Upgrade of the NOCOPO in line with User feedback to include features for better user navigation, analytics by stakeholders, etc.	Level of satisfaction of NOCOPO users with the navigation and analytics features
4.	Increase in public interest to use NOCOPO data for contract monitoring and business decision making	Level of use of NOCOPO data for contract monitoring Level of use of NOCOPO data for business decision making
5.	Investigation of fraudulent activities by anti-graft agencies through reporting from the use of NOCOPO data	Level of use of NOCOPO by antigraft agencies in the investigation of fraudulent activities
6.	Improve in citizen participation in the entire procurement cycle resulting from wider sensitization outreaches	Number of citizens involved in budget engagement processes in Quality of the participation of the citizens in the procurement
7.	Migration of all MDAs to NOCOPO completed	Number of MDAs enrolled into the NOPOCO platform

	Planned Activities	Start Date	End Date	Expected Outputs	Output Indicators
1.	Capacity building for all MDAs for the use of NOPOCO. Capacity building for CSOs and private sector on the use of NOPOCO	October 2019	August 2021	<ol> <li>To train at least 400 MDAs every year</li> <li>To train CSOs and Private Sector</li> </ol>	Number of MDAs trained     Number of CSOs and private sector organizations trained
2.	Capacity building for sensitization of citizens on how to engage at every stage of the procurement cycle in collaboration with other stakeholders	October 2019	July 2021	<ol> <li>Six Townhall Meetings (annually)</li> <li>Four radio jingles</li> <li>Three tweet chats</li> <li>Reports from each engagement by women organizations</li> <li>Audios</li> <li>Links</li> </ol>	<ol> <li>Number of Townhall Meetings on open contracting across the six geopolitical zones in two years</li> <li>Number of radio jingles on open contracting in two years</li> <li>Number of tweet chats held on open contracting in two years</li> <li>Number of women organizations monitoring and reporting contract implementation</li> </ol>
3.	Integrate the organized private sector and gender-based organizations into the existing open contracting Forum (PPMWG)	October 2019	June 2021	<ol> <li>Two user needs workshops</li> <li>Two open contracting workshops for women groups and private sector</li> <li>Reports (MoV)</li> <li>Lessons learnt report (MoV)</li> <li>Videos, links, audios (MoV)</li> </ol>	<ol> <li>Number of User need workshops for private sector entities</li> <li>Number of open contracting workshops held with private sector and Women organizations in attendance</li> </ol>
4.	Upgrade of the NOCOPO portal to reflect user feedback, private sector segment, contractual data and analytical tools for better user experience	October 2019	June 2021	Updated NOCOPO portal	Upgraded features on NOCOPO based on feedback from Users
5.	Increase engagement with available data sets through procurement monitoring by	October 2019	June 2021	Five reports from five contract monitoring groups	Number of contracting monitoring groups using NOCOPO's data

	groups (CSOs, gender private sector, etc.)	CSOs,				
5.	Conduct an annual NO ranking in line with SG circular, Public Procure Act 2007 and BPP's dir mandating data public on NOCOPO	iF's ement rective	October 2019	June 2021	<ol> <li>One Public event for the unveiling of ranking</li> <li>Ranking report</li> </ol>	1. The Unveiling of an annual ranking by stakeholders on NOCOPO 2. Percentage of MDAs complying with SGF circular and BPP's directive
6.	Establish sustained integration of the Nige open contracting port the budgeting system government platform)	tal with and (e-	October 2019	June 2021	Nigeria open contracting portal, ECG integrated with the budgeting system for at least 2 successive budget cycles	An integrated open contracting portal and e- government platform (EGP) with the budgeting system

### **Extractive Transparency**

Thematic Area:	Extractiv	Extractive Transparency					
Commitment 4:	Public disclosure of extractive sector contracts, licenses, permits, payment to government and revenue stream to improve						
Communicate 4.	transpar	ency, fiscal terms and positively impact public finances.					
Implementation	Start	October 2019	End Date:	August 2024			
Period:	Date:	October 2019	End Date:	August 2021			
Lead MDA:	NNPC an	d Ministry of Mines & Steels					
Responsible	V						
Person:	X						
Designation:	GMD/ES,	Minister of Mines & Steel					
<b>Email and Phone</b>	TBD	TDD					
Number(s):	ושט						
	State	NNPC, Ministry of Petroleum Resources (MPR), Department	for Petroleum I	Resources, Federal Ministry of Finance, Budget			
	Actors:	and National Planning		_			

Other Actors	Non-	Civil Society Legislative Advocacy Centre (CISLAC), Publish What You Pay, BudgIT, Stakeholders Democracy Networks, Global						
Involved in the	State							
Implementation:	Actors:							
		ave been commendable efforts in the extractive sector to enhance transparency and accountability. For instance, the National						
	· -	oil Company, NNPC, has published monthly operational and financial statements since 2015, engaged with CSOs and citizens' groups						
	-	nd openly broadcasted bid opening rounds for new licenses. NNPC has also committed and actively participated in the global						
	· •	es, including the OECD and the Extractives Industries Transparency Initiative (EITI) Commodity working group, working						
		bringing further transparency to commodity trading by State-Owned Enterprises globally. The Ministry of Mines and Steel						
		d the 'Road Map for the Growth and Development of the Nigerian Mining Industry' in September 2016 which identified some						
	initiative	es within the short, medium and long-term timeline which the Ministry can undertake to better position Nigeria's mining sector.						
	-	Despite these efforts, the extractive sector still has not fully delivered on developing and improving the well-being of the vast majority of citizens. The pace of reform has been slow and there is still widespread opacity in the industry which has allowed corruption to						
	thrive. Ir	n the case of the oil and gas sector, deepening issues of underassessment, underpayment and under-remittance/non-						
		nce of revenues due to government have limited what the government can deliver to improve the lives of citizens. A backlog of						
		l actions, especially as identified by NEITI audit reports, to improve accountability across financial, processes and production						
Duis ( D s s suis ti s s	has not l	been prioritized or implementation has been too slow leading to further leakage and loss in citizens' confidence.						
Brief Description of Commitment:	Λ £: +							
or communent:		A first step towards achieving transparent, broad-based and effective citizens' participation in the extractive sector is to <b>publish</b>						
	contracts which are the fundamental documents that set out the terms of all investments and projects in the sector. Contract disclosure in the oil, gas and mining sector is increasingly a global norm with progress by governments, international financial							
		ons and the EITI making bold steps to disclose or require public disclosure. The Government of Nigeria has made several						
		ments to publish petroleum contracts including at the 2016 UK Anti-Corruption Summit where the President committed to						
		towards full implementation of the Open Contracting Standard, and the 7 Big Win's that commits to publishing all established						
	_	es and contracts within two to four years. A growing number of companies with operations in Nigeria also have expressed						
	support	for contract disclosure, the majority of these companies have noted, however, that in their view the decision to publish						
	contract	s must be initiated and implemented by the government.						
	Transpar	rency and accountability remain the basis of a sound corporate governance regime. The OECD's position is that information						
	disclosure and higher standards of accountability in SOEs, coupled with other governance reforms, can contribute to improved							
	efficiency and performance of SOEs. Best practice and global standards demand that information disclosure, including both financia							
	and non	-financial data, is essential for the government, so it can be an effective owner; oversight from the National Assembly; the						

media to raise awareness on SOE efficiency; and taxpayers and the general public to have a comprehensive picture or SOE

	performance. Transparency, driven by enhanced disclosures, constitutes a major component of an SOE's accountability to
General Problem / Challenge Addressed by	
the Commitment:	Currently NNPC does not disclose a detailed annual report that would include the audited book of accounts, its finances, the cost of its operations and significant spending on non – commercial activities. It equally does not disclose notable earnings by its subsidiaries and sales level data of the state's share of production or other revenues collected in-kind in terms of volumes and revenues received on crude oil, gas and refined product sales.
Specific OGP Issue(s) in Focus:	This commitment will focus on civic participation and public accountability.
Rationale for Commitment:	Publishing contracts will give the general public the ability to hold public officials accountable for contracts they enter into with their private entities.
Main Objective:	To promote/enhance citizens' engagement by increasing access to information on extractive sector revenue and production.
Anticipated Impact:	This commitment will improve contracts terms to be favorable.

	Expected Outcomes	Milestones (Performance Indicators)
1	Public access to contracts, licenses, permits, payment to government and revenue stream to improve transparency, fiscal terms and positively impact public finances	Establishment and regular update of existing platforms for disclosure e.g. license register, portal of contracts, reports published.

To promote/enhance citizens' engagement by
increasing access to information on extractive
sector revenue and production

2.

Specific number of engagements, hits on the portal and websites by multi stakeholder groups and number of times the media utilize or cite information contained on the website for their reporting.

	Planned Activities	Start Date	End Date	Expected Outputs	Output Indicators
1	Identify and publicly disseminate mechanisms, platforms and frameworks for disclosure of contracts and putting them to use - NEITI	October 2019	March 2020	A publicly available framework for publication of contracts.	Framework for publication of government contracts publicly available
2	Identify, create and update a free online portal for disclosure of contracts, licenses and permits (Public Registers) of the extractive sector	October 2019	March 2020	Public license register published online by the relevant government agencies related to the extractive sector.	Government agencies publish license register online.
3.	Disclose contracts in a free online portal, accessible in both human and machine-readable formats. The portal should contain the full texts of all agreements, together with any subsequent amendments, annexes, schedules, side letters or similar documents. The	March 2020	March 2021	Number of contracts available to citizens.	Number of contracts published online by the relevant government agencies related to the extractive sector.

	annual C	process in Nigeria collects and publishes information about Nigeria's extractive industry and disbursement of revenue. The Dil and Gas Audit, Solid Minerals Audit and Fiscal Allocation and Statutory Disbursement Audit provide data and information e management and utilization of extractive revenue.					
Brief Description of Commitment:	The audit makes various recommendation and identifies those responsible for implementing remediation. To ensure that citizens benefit from the utilization of revenue derived from the sector, there must be a mechanism to engage various segments of the public to hold government accountable and engage them in informed debate. Empowering the citizens with information from the audit will help them to understand how much government receives from the sector, how it is distributed and allocated; and empower them to demand better utilization for improved service delivery and sustainable development.						
	The EITI standards is a tool for continuous improvement of audit and monitoring the extractive sector, provision of data and information; and engagement of stakeholders.						
General Problem		geria is highly rated on the implementation of various EITI standards, challenges of low implementation of audit remediation nment entities and companies; enforcement of sanctions and prosecution of identified offenders; blockage of revenue					
/ Challenge		and recovery of revenue losses and availability of accurate data in the sector remains a challenge. The low participation of					
Addressed by the Commitment:	advocate	groups like women and youths in conversation around the extractive sector limits their ability to hold government accountable and advocate better utilization of extractive revenue. There is also the issue of how to turn available data into actionable tool for the public and how this can be utilized.					
Specific OGP Issue(s) in Focus:	This com	nmitment will focus on civic participation and public accountability					
Rationale for Commitment:	, 1 0 0 1						
Main Objective:	To impro	ove implementation of audit remediation and ensure gender, youth and disability inclusion.					
Anticipated	Increased implementation of remediation; and number of citizens and groups engaged.						

Expected Outcomes		Milestones (Performance Indicators)
1.	Improve public understanding of the management of natural resources and availability of data	<ol> <li>The number of Media Organizations, CSOs and citizens using NEITI data and reports for news reporting, advocacy and campaigns.</li> <li>Number of unique visitors who visit the website.</li> <li>Number of unique downloads of the published audit reports.</li> </ol>
2.	Government agencies and companies actively implementing audit recommendations	Percentage of remediation issues fully implemented.
3	All key stakeholders responsible for remedial actions hold annual open briefing sessions for sector stakeholders and interested public (including CSOs)	<ol> <li>Number of covered entities for remedial action holding annual open briefing session for sector stakeholders and interested public (including CSO).</li> <li>Number of citizens and citizen groups who use the report for advocacy with government at the open briefing sessions.</li> </ol>

	Planned Activities	Start Date	End Date	Expected Outputs	Output Indicators	
1.	Quarterly status/progress update on identified remedial issues by covered entities responsible for remediation	December 2019	(To be published Quarterly)	Establishment of a framework to track updated remediation implementation	<ol> <li>Number of remedial issues resolved</li> <li>Framework established to track remediation</li> </ol>	
2.	Identify and prioritize key reoccurring remedial issues in NEITI oil and gas, mining report	November 2019	March 2020	Prioritized list of remedial issues in oil, gas, mining which have persistently been identified in reports for the last five years without being attended to	A prioritized list of key remedial issues in oil, gas and mining sectors, yet to be addressed following reccurring recommendations in reports for the last five years.	
3.	Produce audit reports in an accessible format that ensures inclusion of women, youths and vulnerable groups in	December 2019	July 2021	Audit reports simplified or produced in a format that caters to women, vulnerable groups and youth in society	Number of simplified audit reports published in human and machine-readable formats.	

	advocacy of issues raised					
3.	Develop framework for good practices on ensuring full participation of women in the extractives sector	October 2019	March 2020	Guide developed on good practices for the private sector, civil society organizations and other stakeholders in ensuring that women are fully represented in decision making processes that affect how the industry is governed and its impact on communities	A guide for gender inclusiveness in decision making processes in the oil, gas, mining industries	
4.	Data disclosure by companies on employment statistics disaggregated by gender	TBA (following consultation NCDMB)	TBA (following consultation NCDMB)	Compliance of companies required to disclose employment statistics disaggregated by gender	Percentage compliance of companies required to disclose employment statistics disaggregated by gender	
5.	Publish a publicly available beneficial ownership register of companies in the oil, gas and mining gas sector	October 2019	February 2020	An online extractive sector register of beneficial owners of companies	Availability of a beneficial ownership register of companies in the extractive sector available on the Ministries and NEITI websites

Thematic Area:	CITIZENS E	CITIZENS ENGAGEMENT							
Commitment 13:		To create the space for citizens and citizen organisations, human right defenders and the media to thrive, express themselves and participate in the different stages of the policy making process without fear or intimidation.							
Implementation Period:	Start Date:	October 2019							
Lead MDA:	National Hu	uman Rights Commission							
Responsible Person:	Х	X							
Designation:	Executive S	Executive Secretary							
Email and Phone Number(s):	TBD								
Other Actors Involved in the Implementation:	State Actors: Ministry of Budget and National Planning, National Assembly, Ministry of Information, Corporate Affairs Commission, Federal Inland Revenue Service, Special Control Unit on Money Laundering, Nigerian Financial Intelligence Unit, Financial Reporting Council, Department of State Service, Nigeria Police Force, Nigerian Army, Civil Defense, National Orientation Agency, Bureau for Public Service Reforms (BPSR).  Non-State Spaces for Change, Media Rights Agenda, Paradigm Initiative, Nigeria Network of NGOs, Amnesty International, PLAC,								
	g								
Brief Description of Commitment:	This commitment will ensure that citizens and citizen organisations can inform and influence government policies and actions through their freedom to associate, assemble and express themselves freely thereby encouraging constant partnership between the public, private and third sector.								

General Problem / Challenge Addressed by the Commitment:	Freedom of association, assembly and expression while moderate in Nigeria, citizens are beginning to witness increased attacks or journalists, bloggers, online influencers and human rights defenders who voice concern or report government failings or are against policies, failure to respect citizens' rights to protests and assemblies and proposals on civil society regulatory frameworks/laws/regulations capable of creating barriers to independent and efficient operation of formal civil society organisations.				
Specific OGP Issue(s) in Focus:	<ol> <li>Low level of citizens voices in the policy making process.</li> <li>Weak safeguards against undue arrest of citizens and non-state actors.</li> <li>Weak citizens and civil society engagement in all levels of government decision-making.</li> <li>Weak civil society-government relationship.</li> </ol>				
The rationale for Commitment:	Many of the OGP commitments will benefit from an open civic space for its success, for example opening government systems and processes, curbing corruption and illicit flows cannot be felt government-wide without active citizens, media and nonstate actors that can use data and information to hold governments accountable. Citizens cannot provide information to government on its policies and programmes where the fear of arrest, gagging and restrictions exists on their ability to speak freely and openly. The public cannot voice or discuss public interest issues freely when there are restrictions on their ability to assemble and or protest.				
Main Objective:	To ensure that citizens and citizen organisations can freely assemble, associate and express their opinions on government policies and programmes.				
Anticipated Impact:	Improved citizens participation and enabling the environment for advocacy, including working collectively towards open and responsive government, guaranteed protection of basic civil liberties such freedom of association, assembly and expression.				

Expected Outcomes	Milestones (Performance Indicators)
An enabling environment for citizens and citizen organisations to associate and assemble to influence and inform public policy.	Ranking in the Civicus civic space index, Freedom House Report on Press Freedom and UNHCR Report
2. Everyone regardless of ethnicity, religion, political or other opinion, state or status is guaranteed the right to freely	Number/percentage of citizens signifying the ability to express themselves without fear of arrest or self-censorship.

	express their opinion on government policies and programmes.	
3.	Safeguards against undue supervision of CSOs provided including impartial, apolitical and consistent application of laws and regulations that affect CSOs.	Percentage of civil society organisations, especially rights-based organisations, expressing their ability to carry out their work without undue interference or impartial application of laws and regulations affecting CSOs.

	Planned Activities		End Date	Expected Outputs	Output Indicators
1	Work with regulators such as CAC, FIRS and SCUML to register CSOs, especially those working on governance and rights issues, within a set time limit on clear grounds that are legitimate.	October 2019	July 2020	Comprehensive guidance document on CSO registration and the strict timeline for registrations	<ol> <li>Registration guideline is publicly available on all regulators' website, including data on average processing time.</li> <li>Number of new CSOs expressing a quick and easy registration process.</li> </ol>
2	Advocate for adequate safeguards against undue supervision of CSOs and the media such as random inspections and searches, ad-hoc demands for information, burdensome or invasive reporting requirements, etc.	October 2019	July 2020	Regulators and law enforcement agents are guaranteeing basic supervisory safeguards for the sector in law and practice.	<ol> <li>Percentage of CSOs attesting that reporting requirements for CSOs are easy to comply with (in line with their size and scope) and publicly accessible-online mechanisms.</li> <li>Constitution developed by CSOs to determine their own governance structures.</li> <li>Number of media organisations, citizens and citizen organisations reporting due process protections regarding inspections of premises and records, demands for information not required in law or regulations, or interference in decision-making or activities</li> </ol>

3.	Establish strategy for the development of an effective CSO-Government relationship through the inclusion and timely release of a funding line in the national budget	October 2019	July 2020	Clear actionable, costed and funded national strategy established.	A clear actionable, costed and funded national strategy established		
4.	Work with FIRS to ensure that tax treatment and eligibility requirements of CSOs are clear in law and regulation to promote consistent and impartial tax treatment	October 2019	July 2020	A clear tax regime for nonprofits and decentralized process for reporting.	Percentage of CSOs reporting clear understanding of the tax regime and ease of reporting, including accessing basic tax exemptions.		
5.	Work with the Nigerian Police and other security agencies to develop a guide on peaceful protests and assembly that is in line with international and ACPHR legal standards.	October 2019	July 2020	Comprehensive guidance on peaceful protest and use of minimal force	The number of people downloading the guidance on peaceful protests and use of minimal force.

	groups in	governance and decision-making processes, ensure implementation of existing laws and policies that affect women,							
	young pe	ople, older persons, persons with disabilities, and marginalized groups, e.g. Affirmative action.							
General Problem /		nadequate engagement, representation, and participation of women, young people, older persons, persons with							
Challenge		s, and marginalized groups throughout the entire governance and decision-making processes in Nigeria. The lack of							
Addressed by the		engagement is reflected in the development of policies/programmes, budget preparation, and implementation. This results							
Commitment:		, young people, older persons, persons with disabilities, and marginalized groups not having a voice, thus not being able to							
		om the projects captured in the budget. Additionally, there are laws & policies in place to protect women, young people,							
	-	sons, persons with disabilities, and marginalized groups, for example, Disability Act, Child Rights Act, National Youth Policy,							
		ational Gender Policy. However, the objectives in these acts and policy are not implemented as the structures and							
	processes	s are not in place.							

## Specific OGP Issue(s) in Focus:

These commitments will ensure Institutionalized transparency and accountability mechanisms for more inclusive engagement including women, young people, older persons, persons with disabilities, and marginalized groups across the entire governance and decision-making processes.

The commitments will ensure increased voice of women, young people, older persons, persons with disabilities, and marginalized groups, addressing systemic barriers, and improving inclusive services for all citizens. The commitment should, therefore, mainstream gender in all OGP thematic working groups.

The commitment will ensure the design and implementation of a policy audit. The audit will identify relevant policies to achieve inclusiveness, identify gaps in those policies, level of implementation and compliance, and make recommendations.

Ensure proper implementation of existing laws, policies and affirmative actions that affect women, young people, older persons, persons with disabilities, and marginalized groups in Nigeria.

## The rationale for Commitment:

- 1. To ensure that all OGP commitments are inclusive and beneficial to women, young people, older persons, persons with disabilities, and marginalized groups.
- 2. To ensure that policy-making processes are inclusive, knowledge-based, and locally driven that will benefit all citizens in Nigeria.
- 3. The Ministry of Women Affairs and Social Development / Ministry of Humanitarian Affairs, Disaster Management and Social Development will lead the implementation of the milestones in collaboration with other relevant MDAs.
- 4. Given the relevant Ministry has the primary responsibility for the coordination of the implementation of the National Gender Policy, the Disability Act, National Youth Policy based on its mandate as the key national machinery for the Federal Government of Nigeria. Hence the Federal Government of Nigeria will demonstrate political will to implement the Disability Act, NotTooYoungToRun Act and sign the Gender Equality Bill.

### **Main Objective:**

- 1. Ensure inclusion, participation and representation of women, young people, older persons, persons with disabilities, and marginalized groups in the entire governance processes.
- 2. Effective implementation of legal and policy frameworks to benefit women, young people, older persons, persons with disabilities, and marginalized groups.
- 3. Ensure proper implementation of affirmative action and laws for women, young people, older persons, persons with disabilities, and other marginalized groups.
- 4. Increase access & control over social, economic and political assets and resources for women, young people, older persons, persons with disabilities, and marginalized groups.
- 5. Provide an enabling environment in all MDAs to encourage full women participation in the governance and decision-making process for example crèche, nurseries, etc.

### Anticipated Impact: these impacts reflect outcomes

- 1. Existing laws and policies for women, young people, older persons, persons with disabilities, and marginalized groups are significantly implemented.
- 2. Affirmative action of 35% representation of women in governance implemented (political positions/offices and appointment) at the national, the OGP compliant states and integrated within the Federal Character Principle.
- 3. Women, young people, older persons, persons with disabilities, and other marginalized groups' participation in the governance and decision-making processes significantly increased to improve the entire governance value chain from conception, planning, design, implementation, monitoring and evaluation.
- 4. National shelter/for older persons and /temporary home for women, girls/children survivors of sexual and gender violence established in each of the six geopolitical zones of the country.

Recommendations: Improved Economic GDP, Social Justice, Respect for Human Rights, Increased participation in Governance

	Expected Outcomes	Milestones (Performance Indicators)
1.	New Public buildings/	Percent of new public buildings with the necessary accessibility easily accessible to persons with disabilities
	structures designed and	constructed.
	constructed with the necessary	
	accessibility aids such as ramps,	
	elevators (where necessary)	
	and any other facility easily	
	accessible to persons with	
	disabilities constructed.	
2.	Existing public buildings that	Percentage of existing public buildings accessible for persons with disabilities.
	are not accessible for persons	
	with disabilities with the	
	necessary accessibility aids	
	such as ramps, elevators	
	(where necessary) modified.	
3.	Representation and active	1. Percentage of MDAs at the Federal level that are compliant with the 35% representation and active participation
	participation of Women and	of women in governance and decision-making processes.
	young people in governance at	2. Percentage of MDAs in each state that are compliant with the 35% representation and active participation of
	the Federal and at least a third	women in governance.
	of the states and integrated	3. Percentage of states that are compliant with/implementing the NotTooYoungToRun Act.
	within the Federal Character	
	Principle implemented.	

4. Women, girls/children survivors of gender-based violence able to access safe shelter, in each of the six geopolitical zones of the country established.	<ol> <li>Numbers of women, girls/ children survivors of sexual and gender-based violence in each geopolitical zone using the temporary homes.</li> <li>Number of shelters constructed for older persons in each of the geopolitical zones.</li> </ol>
5. Train and support women, young people, older persons, persons with disabilities, and marginalized groups youths across the country are effectively participating in the governance process.	Level of active engagement of trained women, young people, older persons, persons with disabilities, and marginalized groups across the country, in the governance and decision-making process in Nigeria.
6. Gender budgeting	MDA budgets to adopt gender budgeting system.

	Planned Activities	Start Date	<b>End Date</b>	Expected Outputs	Output Indicators
	Drive gender- mainstreaming through deepening policy and legislative instruments	October 2019	July 2021	<ol> <li>Legislation - Gender-Equality Bill</li> <li>Access to financial services of women, under-represented groups</li> <li>Enforcement of Legislation - Girl Child Rights Act, etc.</li> <li>Gender Inclusion in political positions</li> <li>Gender-Based Budgeting</li> <li>Country-Specific Commitments on SDGs</li> </ol>	<ol> <li>On-Time Passage of Gender Equality Legislation</li> <li>Increase in Women Financial Inclusion</li> <li>Percentage compliance with Girl Child Right Acts</li> <li>Percentage compliance with Persons with Disability (PWD)         Act</li> <li>Percentage of Women in Positions of Power</li> <li>Percentage of the National Budgets allocated to women</li> <li>Points on closure of Gender Gap up country level</li> </ol>
1.	The Ministry of Women Affairs/ / Humanitarian & Disaster Management/Social	October 2019	July 2021	<ol> <li>Meeting between the Ministry of Women Affairs, Humanitarian &amp; Disaster</li> </ol>	Percentage of new public buildings constructed with accessibility aids for persons with disabilities

	Development and Federal Ministry of Works and Housing to ensure a new Public building designed and constructed with the necessary accessibility aids such as ramps, elevators (where necessary) and any other facility easily accessible to persons with disabilities.			Management/Social and Social Development and the Ministry of Works and Housing on public building design.  2. New design with accessibility aids such as ramps, elevators (where necessary) and any other facility, shared with all government agencies.	
2.	Identify existing public buildings that are not accessible for Persons with disabilities.	October 2019	July2019	Database/ Mapping of all existing public buildings that are not accessible for persons with disabilities	An updated list of all existing public buildings that are not accessible for persons with disability and the necessary remedial work required
3.	Modify existing public buildings that are not accessible for persons with disabilities with the necessary accessibility aids such as ramps, elevators (where necessary)	October 2019	July 2021	Modified existing public buildings that are not accessible for persons with disabilities with the necessary accessibility aids such as ramps, elevators (where necessary)	<ol> <li>Circular to all government agencies that are not accessible for PLWDs on the need to modify public building in line with the Disability Act.</li> <li>Provisions for modifying all public buildings with necessary accessibility aids made in the 2020 budget.</li> <li>Number of existing buildings modified to be accessible by PLWD.</li> </ol>
4.	The Ministry of Women Affairs/ Humanitarian & Disaster Management/Social Development and other relevant MDAs to ensure affirmative action of 35% representation and active	October 2019	July 2021	The Federal Character Principle adapted to include 35% representation and active participation of Women in governance at the Federal and at least a third of the states and	<ol> <li>A modified Federal Character Principle to incorporate 35% representation and active participation of Women</li> <li>Circular to all MDAs on the implementation of the 35% representation and active participation of women in their organization</li> <li>Number of meeting reports where the modified Federal Character Principle advocated to States at the Federal/national and Subnational level</li> </ol>

	participation of Women in governance is implemented at the Federal and at least a third of the states and integrated within the Federal Character Principle.			integrated within implementation	
5.	Ensure budget allocation and release for at least one national shelter/temporary home for women, girls/children survivors of gender-based violence established in each of the six geopolitical zones of the country.  All MDAs should design and implement a gender-friendly budget process that encourages inclusiveness.	October 2019	July 2021	<ol> <li>Available funds for the construction of six national shelters/temporary homes for women, girls/children survivors of gender-based violence established across six geopolitical zones.</li> <li>Site identified for the provision shelters/temporary homes for women, girls/children survivors of gender-based violence in each geopolitical zone.</li> <li>Construction of the sixnational shelters/temporary homes for women, girls/children survivors of gender-based violence established across six geopolitical zones.</li> </ol>	<ol> <li>Design and Implementation of budgetary allocation and release for the construction of six national shelters/temporary homes for women, girls/children survivors of gender- based violence established across six geopolitical zones.</li> <li>Implementation of recommendation to design and construct 6 national shelters/temporary homes for women, girls/children survivors of gender- based violence constructed across six geopolitical zones.</li> </ol>

6.	Train and Support vulnerable women a young people across country and develop effective programme around governance.	the	July 2021	<ol> <li>Database of the vulnerable across six geopolitical zones identified.</li> <li>Competency needs assessment report for young people on political participation.</li> <li>Training modules based on identified challenges/needs.</li> <li>Training workshops for young people on effective participation in governance conducted.</li> </ol>	<ol> <li>A complete database of young people across six geopolitical zones in partnership/ with support from NIMC, NPC and INEC</li> <li>A competency NEEDS assessment report for young people on participation in governance.</li> <li>Training modules based on identified challenges/needs.</li> <li>Numbers of training workshops of young people on effective participation in governance conducted.</li> <li>Numbers of young people trained.</li> </ol>
7.	CSOs to monitor effectinclusion of interest of women, young person with disabilities and of marginalized groups government program	of 2019 ons other in all	July 2021	1. CSOs and other relevant stakeholders developed effective tracking, monitoring tools. 2. Effective Monitoring/tracking tool used, analysis of government programs that affect PWDs conducted, lesson learned documented.	Develop effective monitoring tools to track inclusivity of programs, policies of government.
8.	CSOs to advocate pa of the Gender Equali	ty Bill 2019	July 2021	1. CSOs and other relevant stakeholders engaged with National Assembly around GEO Bill passage.	<ol> <li>Reflection session conducted with Key stakeholders, CSOs on Gender and Equal Opportunity Bill.</li> <li>On-Time process of Passage and assent of Gender Equality bill</li> </ol>

## National Action Plan Implementation and Co-ordination Framework

#### 1 Context

The OGP governance framework in Nigeria seeks to model the international mechanism. The process requires a multi-stakeholder engagement and equal representation of government and non-state actors in the Steering Committees.

Against this background, Nigeria has a forty-two member National Steering Committee made up of twenty-one government agencies, including the National Judicial Council and the National Assembly, as well as twenty-one Civil Society Organizations, private sector institutions, and professional bodies whose mandates cut across the OGP thematic areas. Some government Ministries, Departments and Agencies, Civil Society Organizations, and the Nigerian Governors' Forum were included as observers because of their relevance in the implementation of the OGP commitments and principles in Nigeria. During the Stakeholders Session on OGP and the Implementation of the President's Commitment in the London Anti-Corruption Summit held in July 2016 at the Sheraton Hotel, Abuja, government Ministries, Departments and Agencies and Civil Society Organizations self-selected their representatives based on the alignment of their mandates and the responsibilities they were assigned to implement in the OGP process. His Excellency, President Muhammadu Buhari, subsequently approved the members of the NSC.

It is important to state that the membership of the National Steering Committee is for two years, starting and ending at the beginning and end of the implementation phase of a National Action Plan. The positions in the National Steering Committee will become subject to election at the end of every phase of Nigeria's implementation of the OGP National Action Plan. This will give other Ministries, Departments and Agencies, Civil Society Organizations and private sector actors the opportunity to become members of the National Steering Committee.

Following recommendations from the Global Support Unit and mirroring international best practices, the National Steering Committee for the implementation phase of the second National Action Plan will be constituted by twenty organisations; ten from government Ministries, Departments and Agencies and ten from Civil Society Organisations, Organised Private Sector and Trade Unions.

## 2 National Steering Committee

The National Steering Committee (NSC) is drawn from civil society, private sector institutions and government agencies, and will meet twice a year unless there is an urgent need to convene the NSC.

The roles of the NSC are to:

- Set high-level strategy, policies, and procedures;
- Provide targeted outreach and support to encourage members, government institutions, and non-state actors to meet their OGP commitments;

- Contribute funds and help with fund raising;
- Represent OGP and promote its accomplishments on the international stage;
- Set a strong example by upholding OGP values and principles and make ambitious commitments;
- Recruit and brief new Steering Committee members during the third phase of the National Action Plan;
- Connect the OGP Secretariat to key potential partners; and,
- Approve the Budget of the OGP Secretariat and annual work plan.

# 3 Co-Chairs for the OGP National Plan (Governance and Leadership Sub-Committee)

Four co-chairs will lead the NSC. It comprises the lead government co-chair and an incoming government co-chair, one co-chair and an incoming co-chair from the non-state actors. The four co-chairs and the Executive Director (of the OGP Secretariat) will also serve as the Governance and Leadership Sub-committee of the NSC. Their responsibilities are to:

- Ensure vitality of OGP leadership by recruiting and orienting new members and new co-chairs of the National Steering Committee;
- Work with the OGP Secretariat Executive Director to plan and run Steering Committee meetings;
- Hire and Supervise the Executive Director;
- Ensure sufficient funding for the OGP to achieve strategic objectives; and,
- Provide financial, legal and ethical oversight.

## 4 OGP Secretariat Management Team

The OGP Secretariat will be led by the Executive Director assisted by a minimum of four Senior Advisers, namely the, (i) Civil Society Adviser, (ii) Public Sector Adviser, (iii) Communications Adviser and (iv) Subnational Engagement Adviser. There will be four support staff on finance and administration, monitoring and evaluation/independent review, technology and innovation. The Roles of the Advisers shall include:

#### 1.4.1 Adviser on Civil Society

- Build and maintain trust and credibility with civil society organizations.
- Design effective engagement strategy and work plan.
- Design and jointly implement civil society programming and activities.
- Support Civil Society Partners to constructively engage the OGP process.
- Build partnership between the private sector, businesses and the OGP Platform.

#### 1.4.2 Adviser on Public Sector

• Provide advisory support and guidance on all public sector issues as it relates to engagement of government agencies with the OGP process.

- Maintain communication with MDAs responsible for implementing specific commitments during the NAP implementation period.
- Contact MDAs responsible for implementation of specific commitments to get information on progress for inclusion in the self-assessment report.

#### 1.4.3 Adviser on Communications

- Provide necessary input and guidance to implement the communication strategy in line with management decision.
- Build partnerships between all forms of media and the OGP process.

#### 1.4.4 Adviser on Subnational Engagement

 Responsible for developing and building the relationship between the OGP process and the various states.

## 5 Support Staff

The Secretariat shall be made up of the Executive Director and a minimum of four support staff that will work directly with the Executive Director. They will cover crosscutting areas such as technology and innovation, monitoring and evaluation, administration and finance. The Executive Director will be at liberty to hire more support staff if the need arises and depending on availability of funds.

## 6 Working Groups

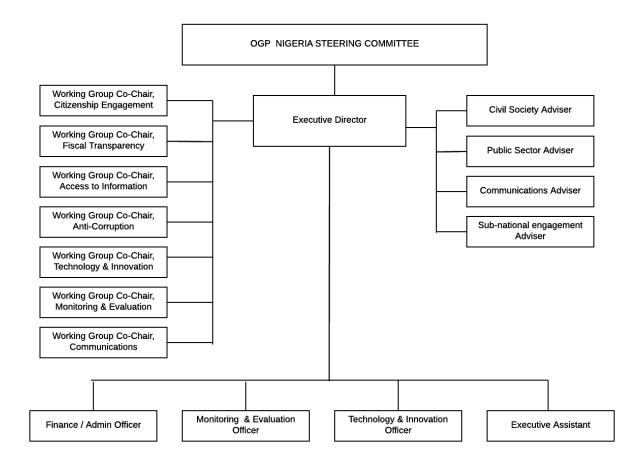

Working Groups will be established along the OGP working groups – 7 (seven) thematic areas as well as the three crosscutting issues identified in the NAP II. Co-Chairs selected by each working group will lead the Working Groups. Working Groups will be made up of Representatives of Ministries, Agencies, Departments, CSOs and private sector depending on expertise. Co-chairs will be elected every by the members of the working groups. The Working Groups will also be required to develop their terms of reference and guidelines with the support of the OGP Secretariat.

## 7 Funding

In its design, funding and implementation, OGP is not being treated as a stand-alone "project." For the process to be successful, there is need for it to be largely funded through the government's annual budget, including contribution from agencies that have primary responsibility on commitment areas. Development partners with interest in promoting good governance and transparency in Nigeria have supported the process by providing technical assistance to the OGP Secretariat and to sub-nationals where they have ongoing programs. The OGP Secretariat has relied rather heavily on support from Development Partners in the implementation of the NAP. Government needs to step up its budgetary provision in order to curtail undue reliance of the Secretariat on Development partners in the implementation of NAP II.

It is also expected that States signing onto the OGP Commitments would set aside some funds for the purpose of developing state action plans, training of its officials and for the implementation of the OGP state plans.

# 8 Organogram of the OGP Process in Nigeria

#### Section 6.

## **Crosscutting Areas**

To ensure effective implementation of Nigeria's OGP commitments, the NAP II includes three crosscutting areas of work. These are: (1) Technology & Innovation; (2) Monitoring & Evaluation; and (3) NAP Communication Strategy. The NSC agreed that achieving all commitments and objectives under the NAP II would require the effective use of these three tools and has established three specific working groups tasked with the responsibility of integrating these tools into the commitments under the thematic areas, and work closely with MDAs and civil society in the use and implementation of these tools. The tools remain relevant in achieving all commitments and objectives under NAP II

## 1 Technology and Innovation

The use of technology to provide greater access to information and data is at the heart of an open and transparent government. The NSC recognizes that Technology & Innovation cuts across all seven OGP thematic areas and that appropriate solutions and infrastructure

are required to deliver on each of the commitments. Therefore, a specific Technology & Innovation Working Group has been established to:

- Identify existing government IT solutions and infrastructure that are available for the implementation of OGP commitments.
- Establish what their current status is and what gaps exist.
- Recommend how those gaps can be filled through improvements in existing systems and infrastructure or the use of new and innovative tools that are realistic given the present economic realities.

In addition, Nigeria will commit to establishing a Central Open Government Information Platform that will serve as the OGP Nigeria portal/website, to make information sharing with the citizens and civil society easier and more efficient. This public facing platform will be real-time, sharing information with Nigerians about the progress on implementation of the OGP NAP commitments and other relevant governance information.

The National Information Technology Development Agency (NITDA) has a mandate which includes improving access to public information, imbibing transparency into government processes using IT, and ensuring that IT resources are readily available to promote efficient national development. This mandate aligns directly with the OGP principals and objectives. In line with that, NITDA and the Technology Working Group will:

- Conduct a prioritized audit of IT capacity and gaps within MDAs relevant to the OGP process.
- Address identified IT gaps in order of priority, considering limited timeline and resources.
- Provide a continuous technology support mechanism to the OGP commitments.
- Ensure that all technological implementations across relevant MDAs conform to global information technology standards to guarantee systems interoperability for effective support of OGP commitments.
- Establish the Central Open Government Information Platform and ensure that it interfaces seamlessly with the electronic platforms of MDAs relevant to the OGP NAP implementation.

## 2 Communication Strategy

Recognizing that openness in and of itself is not an end to achieving transparency and accountability, the NSC has included within the NAP II a strategy for the use of both existing and new platforms for citizen engagement and feedback on the four NAP II thematic areas. The Communications Strategy includes methods to reach out to citizens directly through civil society, religious leaders and influencers, elected representatives, and the media. It will employ the ACADA (Assessment, Communication, Design, and Action) concept in the development and implementation of this communication strategy. Key elements of the strategy include:

• A reorientation of the psyche of public officials to their responsibility to the citizenry and stakeholders, including donors, businesses and civil society to account for the management of the commonwealth, government revenue, loans and grants.

- Increasing awareness by citizens of their right to reports of stewardship by public
  officials, the right to information on demand as provided for by the Freedom of
  Information Act 2011 (FOIA), and the right to a minimum standard of service delivery
  from public institutions that possess a direct interface with the public in the provision
  of services.
- Reducing the communication gap between the government and its citizens by the
  identification and adoption of existing or establishment of new, credible and robust
  feedback mechanisms, which promote transparency and support participation in
  governance by the citizens and other stakeholders in the business of governance.

Through this, citizens will be better informed about the progress made towards the implementation of OGP commitments and can hold government to account. This includes understanding their rights under existing and new laws, along with the obligations of government and the private sector regarding openness and transparency.

### 3 Monitoring and Evaluation

Internal Monitoring & Evaluation (M&E) of the NAP implementation is important for MDAs to ensure that (i) they are on track to fulfill their obligations under each commitment; (ii) assist the NSC to oversee the implementation process and identify potential gaps and determine where support and resources are needed to be directed; and (iii) for citizens, the private sector, civil society and the media to hold government to account with respect to delivering on its OGP commitments. The NAP II will use a Results Based Management (RBM) Framework, along with appropriate output and outcome Key Performance Indicators (KPIs), crafted to track achievements, results and impacts of OGP commitments. The M&E system will be presented in a simple template for ease of implementing MDAs and civil society to monitor and evaluate progress.

Each of the 16 commitments articulated in the NAP II have KPIs that will guide the M&E process. Through consultation with stakeholders, the M&E framework will include acceptable results (what should be expected or seen) for each commitment area. Each of these results will be reviewed with respect to how they link to citizens' needs and there will be agreed indicators for these results. The method to capture results most effectively will be agreed upon as well as who will be responsible for this, within the MDAs.

The results framework will give a clear view of the performance status of the commitments at a glance. It will be sequentially presented, linking commitments to ambitions (outcomes/impacts) and indicators to ensure that implementation of activities (milestones) is purposeful and results oriented. The OGP focus areas of openness (Transparency, Accountability, Public Participation and Technology / Innovation) provide direction to specific commitments captured in the NAP. Therefore, this M&E strategy recognizes that the performance of each of the commitments in the NAP will be measured against the four focus areas to determine the overall level of change that has been achieved. A yearly qualitative assessment will also be conducted across the commitments to ascertain the level of openness regarding each of the four openness areas. Prior to the qualitative assessment, a set of questions/checklist, in addition to the KPIs contained in the results framework, shall be prepared to ensure consistency in assessment.

## Sub-National Engagement and Pilot State Commitments

#### 1 Context

The Subnational OGP Program had 10 states signing up to the OGP process with one joining the Global OGP Local Program as one of the pilot subnational. The International Steering Committee discussed the pilot phase of the Local Program to assess its impact and decide its future. The committee set up a taskforce to review the existing strategy and recommend the best approach for expansion of the program. The taskforce studied subnational OGP processes through interviews with 90 actors from 27 countries, including Nigeria, involved in the OGP local program and made recommendations on how best to expand OGP Local Program. The taskforce completed their work and presented their report to the International Steering Committee in May 2019 during the 2019 OGP Global Summit in Ottawa, Canada.

The International Steering Committee approved the following recommendation of the taskforce and authorized the Global Support Unit to develop an implementation strategy immediately:

- 1. Strategic national-local vertical integration: Recognizing that open government reforms can have more impact and be made more sustainable when national open government reforms are localized and when local innovations are scaled, support the further development of effective national government and/or civil society strategies to enable and foster local open government. This would include supporting national government and civil efforts to promote open local government within OGP National Action Plan processes or through separate national initiatives.
- 2. Enhanced OGP Local program: Building on the successes and lessons learnt from the pilot program, develop a new "OGP Local" program that incentivizes local ambition and innovation; supports more local governments and civil society actors to cocreate and implement open government commitments that respond to citizens' interests; and creates cohorts of local participants that can support each other and inspire others. The new program will retain some of the core features that drove the success of the Local program co-created action plans, monitoring, opportunities for peer learning but will be made less resource intensive by redesigning the approach to monitoring and support provided to individual participants.
- 3. Platform for knowledge, learning, innovation and capacity building: A core part of OGP's medium-term vision is for it to become a platform for sharing knowledge, learning and innovation on open government, and to be a source of capacity building tools and resources for governments and civil society working on open government reforms within and outside OGP. The expansion of OGP Local has this vision at its core. OGP will use a combination of online and offline tools to create opportunities for local level reformers to share knowledge, access expertise from partner organizations, and to receive trainings at a much larger scale than has been possible

so far. In this way, OGP's local community will be at the forefront of a partnership-wide vision for a more collaborative platform for learning.

The recommendation drew strongly from Nigeria's approach and provides opportunity for better coordination with learning and peer-exchange among states.

To this end, the National Steering Committee at its 5th Meeting approved a new framework for subnational OGP for states intending to join the process. While the existing 10 member states will benefit from the implementation strategy being developed by the Global Support Unit, new states joining the OGP Process will first meet the criteria set out in the new Subnational framework.

## 2 A Framework for Participation in the OGP Process by States

Any State seeking to join the Open Government Partnership (OGP) in Nigeria must demonstrate a minimum level of commitment to open government principles in four key areas, namely:

- Fiscal Transparency
- Access to Information
- Asset Disclosures by Public Officials, and
- Citizen Engagement

Such commitment will be demonstrated by outlining steps already taken by the State in question to improve governance in the above areas. The State must also further make a specific commitment in its "letter of intent" to further improve governance in these four areas, at a minimum, and must endorse the Open Government Declaration (contained in: <a href="https://www.opengovpartnership.org/open-government-declaration">https://www.opengovpartnership.org/open-government-declaration</a>).

Any State that desires to join OGP Nigeria and is able to satisfy these requirements may then take the following steps:

- 1. Review and understand the National Action Plan.
- 2. Write a letter of intent to the Co-Chairs through the OGP Nigeria Secretariat in the Federal Ministry of Justice to express intent to join the OGP in Nigeria.
- 3. Upon receiving the letter of intent, the OGP Nigeria Secretariat should verify the claims made by the State about the steps already taken by the State to improve governance in the four areas identified above. The Secretariat may undertake such verification by asking for supporting evidence from the State in question, by visiting the State and interviewing relevant stakeholders to establish the veracity of the claims or, where possible, conducting desk or online research to obtain relevant information.
- 4. If satisfied that the State in question has satisfactorily demonstrated a minimum level of commitment to the open government principles, as required, and has expressed its commitment to further improve governance in the relevant areas, the OGP Nigeria Secretariat shall forward to letter of intent to the Co-Chairs with a recommendation that the State in question be admitted into or denied membership

- of OGP Nigeria, as the case may be, with a summary of its findings with regards to the steps already taken by the State.
- 5. Upon receiving the letter of intent, each Co-Chair will respond to the OGP Nigeria Secretariat stating his or her decision on whether the State in question should be admitted into OGP Nigeria or denied membership.

If a majority of the Co-Chairs vote to deny the State membership of OGP Nigeria, the State shall be informed in writing by the OGP Nigeria Secretariat that it will not be admitted into OGP Nigeria.

If the State remains desirous of joining OGP Nigeria and is willing to apply in future to be admitted, it may seek the advice of the OGP Nigeria Secretariat on how to improve governance in the State in the four key areas identified in order to become eligible. The OGP Nigeria Secretariat may then work with and support the State government and other stakeholders in this process.

If, however, a majority of the Co-Chairs vote to admit the State into OGP Nigeria, the OGP Nigeria shall duly inform the State in question in writing, and advise the State about the next steps for formal acceptance into the OGP Nigeria Family, which will include some or all of the following steps:

- 1. In collaboration with the OGP Secretariat in Nigeria, the State will be expected to organize a workshop to bring together relevant government institutions and relevant civil society organizations and private sector institutions to discuss OGP principles to determine (i) the persons who should be members of the State Steering Committee as well as those should serve as Co-Chairs, and (ii) the Commitments that the State should make in its State Action Plan.
- 2. States will send the list of the State Steering Committee members and Co-Chairs as well as the commitments from the state to the Co-Chairs of the National Steering Committee. Such commitments will be expected to reflect issues of transparency, accountability and participation of citizens in line with the priorities and context of the State in question.
- 3. The State will thereafter inform the OGP Nigeria Secretariat if it requires assistance to develop the State Action Plan around its commitments and indicate the nature of the assistance required.
- 4. Each State admitted to OGP Nigeria in this manner would be expected to formally send a request to the OGP Nigeria Secretariat for training of the State Steering Committee members and Co-Chairs on the development and implementation of the State Action Plan.

#### Section 8.

#### Conclusion

The process of preparing NAP II involved robust consultations with civil society and relevant government agencies. The partnership that the civil society and government provided ensured that the content of this plan was co-created from the beginning. Such a robust participatory process inspired a communication strategy that will enable both government and the citizens to take complete ownership of this plan and what it intends to achieve. It is expected that civil society will monitor government and insist that implementation be consistent with all aspects of the promises contained herein. In this regard, government will also hold non-state actors and citizens accountable in ensuring that they implement their own part of the NAP II. Government and leaders at all levels of governance are expected to remain open to receive constructive feedback and suggestions on ways to improve the implementation of the NAP II and maximize impact.

As we proceed on this positive steps in our nation's journey from transparency to accountability and ultimately, improved service delivery, the Nigeria OGP Secretariat and the National Steering Committee stand ready to work hand in hand with all stakeholders to ensure that a more open and transparent government delivers the equitable and sustainable development that meets citizens' desire for tangible improvements in service delivery.
